### **DETAILED ACTION**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. I. Claims 21-136, drawn to evaluating debtor risk based on the calculation of consumer prepayment scores, classified in class 705, subclass 38.
- II. II. Claims 137-156, drawn to determining prepayment scores representative of prepayment propensity of loan applicants, classified in class 705, subclass 38.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are directed to related to the evaluation of debtor risk. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed are mutually exclusive and are not obvious variants. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.
